

Fracking Song

Out of the ground, into the earth
What we put in, what we take out
Fracturing stones, bleeding stones
Water running, running home

Wanting, needing, seeking, reaching
Neighbors, strangers all
All connected, all affected
Share and share alike

Little lights and tiny voices
Unite in a strand
Making ripples bright and loud
Hear and see and watch and listen to their song

The longest line, cold stretch of time
Grandchild to grandchild
What we inherit, what we merit
What we leave behind

Fracturing stones, ashes and bones
Water running, running home

Little lights and tiny voices
Unite in a strand
Making ripples bright and loud
Hear and see and watch and listen to their song
